*music is what feelings sound like*

Bringing the right musical vibe, musical positive energy to the people is his goal. If it's in a club, a lounge(bar), a festival or a wedding he knows to bring it.

Currently, he can be heard weekly on weekends at the unique Skylounge Amsterdam where he is bringing that vibe in a 6 hours sets to a international crowd, with a deep, melodic, feelgood house sound and well known (popular) songs often in a special remix. Bringing the musical love to the crowd in the city he was born.

After 25 years of spinnin' records, fluently mixing, spendin' thousands of hours playing at parties, (exclusive) events and already in eight different European countries, he still knows how to entertain the crowd.

Now a days often performing together with musicians like saxophone, percussionist, singer, MC, bringing it to a higher entertainment & musical level. Called: Fresco Project! Always a blast!

Through it's disco and hip hop roots of the 70's 80's and 90's he's musically very wide. Can mix all of these styles perfectly in one set. Every time gets people movin', shakin' and havin' a great time. All for the love of music.
